Dear valued customer,

May 08, 2024

MasterFlow and NaX product lines become Sika.

In May 2023, Sika closed the acquisition of MBCC Group, a leading global supplier of construction chemicals of which Master Builders Solutions and Nautech were brands. With a focus on innovation and sustainability, MBCC Group has been at the forefront of driving positive change in the construction industry. By joining forces, Sika and MBCC Group have created an innovation and sustainability champion with a global workforce of 33,000 experts. Sika is now active in 103 countries across the globe and operates more than 400 factories.

To comply with regulatory requirements, the brand “Master Builders Solutions” is not owned by Sika and after a transition period Sika must therefore rebrand all Master Builders Solutions products in our portfolio to a Sika branding. Simultaneously, we will be rebranding Nautech’s NaX products to integrate them into the Sika brand architecture as well. Only the branding will change; the highly appreciated MBCC products will continue to be offered under the new branding.

The acquisition brings two complimentary portfolios together, offering a greater number of additional innovative and sustainable solutions you will benefit from. To facilitate this transition and allow for maximum transparency, we will share comprehensive product overviews on a landing page on our website in due course. We are convinced that with this solution we are creating a perfect platform for our customers to profit from a wide range of products and applications.

As of February 5, 2024, you may start to see the new product names on certain documents, like invoices and delivery notes or Safety Data Sheets in the following formats: “SikaGrout®-9600, formerly MasterFlow® 9600”, “SikaGrout®-9550 formerly NaX® Q140-E” etc. As of April 2024, you will start to receive products with packaging under the new branding; however, it will take some time before all the rebranding has been implemented for all products.

We expect that to happen around October 2024 when all product packaging will have been rebranded as illustrated in the table below:

PAGES 2/2
DATE May 08, 2024

Previous Name Phased out	New Name (Sika Name) Sika alternative
Masterflow 9600	SikaGrout®-9600
Masterflow 9650	SikaGrout®-9650
Masterflow 9800	SikaGrout®-9800
Masterflow 9500	SikaGrout®-9500
NaX® Q140-E	SikaGrout®-9550
NaX® Q110-E	SikaGrout®-9850
NaX® Q80	SikaGrout®-9610
NaX® Q135-F	SikaGrout®-9920
NaX® B210	SikaGrout®-9970
NaX® WP13	Sikacrete®-1300 Light
NaX® WP16	Sikacrete®-1600 Light
Masterflow 9000 Lub	SikaGrout®-9000
NaX® Binder G	SikaGrout®-9010

Over the course of 2024, all marketing and technical documents will be updated to reflect Sika's branding and the new product names. Please be assured: The quality of our products and services will not change by this exercise. We will periodically keep you updated on the status and your known Sika contacts will be happy to support you.

If you have any questions, please do not hesitate to contact your Offshore Regional Management representative at below contact details. The service to our customers and the continuity of our business relationships is our highest priority and we are committed to ensuring a smooth transition for you and your teams. We appreciate your loyalty and look forward to staying in touch.
