SIKA TAIWAN AWARDED GROUT SUPPLY CONTRACT FOR HAI LONG OFFSHORE WIND FARM PROJECT

- **Sika Taiwan successfully awarded the grout supply Scope for Hai Long Offshore Wind Project.**
- **An estimated quantity of more than 15,000Te of MasterFlow-9800 in bulk to be supplied over the years 2024 and 2025.**

Sika was awarded by CSBC-DEME Wind Engineering Co., Ltd to supply MasterFlow 9800 for the Hai Long Offshore Wind Project to be installed offshore Changhua County, Taiwan. The awarded supply scope is more than 15,000 tonnes of MasterFlow 9800 in bulk over 2 years with the first product delivery to commence in early 2024.

The Hai Long offshore wind farm is a 1,022MW offshore wind project to be developed 45-70km off the coast of Changhua County in Taiwan. The Hai Long offshore wind project will be developed in three stages with each stage involving a separate grid allocation which will respectively be developed in 2024 through 2026. The project will consist of 73 units of next- generation WTGs all installed on 3-legged jacket foundations, and two offshore substations.

"Sika supports the development of offshore wind as a climate-friendly source of energy by offering advanced offshore solutions for ensuring durability, and full reliability of the assets and by aiding the successful construction of modern offshore windfarms. With this new grout supply deal, Sika further enhances brand presence as the preferred choice by providing high quality and reliable solutions for the grouted structural connection of offshore wind farm foundations", said Andy McGregor, Head Offshore Construction - APAC
